THE LORD GOD BREATHED INTO THEM

EZEKIEL 37:5-10

JOHN 20:22 — ACTS 2:47

Certified CPR Training *Built on Trust* & Excellence

Serving Tampa Bay and beyond with American Heart Association-aligned CPR, First Aid, and AED instruction — for schools, businesses, churches, and families who refuse to be unprepared.

TRAINING PROGRAMS

Three Programs. *One Mission.*

From active-violence response to CPR certification to OSHA workplace safety — every program is built by certified professionals and delivered onsite for your team.

★ NEW PROGRAM

Active Violence Incident Response Training

AVIRT™ · ACTIVE VIOLENCE RESPONSE + STOP THE BLEED

When seconds matter, training matters more. AVIRT prepares ordinary people to act decisively in extraordinary moments — at school, at work, in worship, in public, and at home. Built by firefighters, EMTs, first responders, and medical professionals, AVIRT combines active-violence response with hands-on bleeding control so you and the people you love are equipped to survive — and to save lives.

PILLAR 1

Recognize

Read situations early. Use situational awareness to spot threats before they escalate.

PILLAR 2

Respond

Decide and act with confidence — escape, evade, or counter the threat.

PILLAR 3

Stop the Bleed

Master the hands-on techniques that control life-threatening

bleeding in minutes.

- ✓ Course completion cards verifiable through the issuing provider

Workplace Safety Training

GENERAL INDUSTRY & CONSTRUCTION · OSHA-CERTIFIED
SAFETY PROFESSIONALS · ONSITE

Reduce injuries. Pass OSHA inspections. Protect your bottom line. Most workplace incidents — slips, trips, falls, electrical contact, struck-by, and caught-between events — are preventable with the right training. We help employers identify, eliminate, and control hazards before they become incidents, with practical onsite training built around your actual work environment.

Slip, Trip & Fall Prevention

OSHA

Walking-working surfaces, housekeeping standards, footwear, signage, and hazard identification.

Electrical Safety Awareness

OSHA

Lockout/tagout fundamentals, energized work, GFCI use, extension cord safety, arc-flash awareness.

Fall Protection

OSHA

29 CFR 1926.501/502 & 1910.28/29 — anchor points, harnesses, guardrails, and rescue planning.

Excavation Competent Person

OSHA

Trench hazards, soil classification, protective systems, surcharge loads — 29 CFR 1926 Subpart P.

Confined Space Entry

OSHA

Permit-required spaces, atmospheric testing, ventilation, attendant/entrant roles, rescue plans.

Heavy Equipment Safety

OSHA

Operator awareness, ground worker positioning, blind spots, spotter use, swing radius.

Traffic Control & Flagger

MUTCD

Work-zone setup, flagger station positioning, signal techniques, PPE, night-work visibility.

PPE & Hazard Communication

OSHA

Eye, face, head, hand, foot, and respiratory protection. HazCom / GHS labeling and SDS access.

Delivered by OSHA-certified safety professionals. Our team brings field-tested expertise in traffic control & flagger operations, excavation competent-person duties, confined space entry, fall protection, and heavy equipment safety. We've written the incident reports, conducted the field inspections, and coordinated the contractor stand-downs — so the training reflects how hazards actually appear on real job sites.

WHY CHOOSE 2ND BREATH CPR

Every Class. Every Skill. *Every Life.*

From the lecture room to the practice mat to the certificate in your hand — we deliver training that's clear, hands-on, and ready for the real world. Trusted by schools, government agencies, security teams, ministries, and businesses across Tampa Bay and internationally.

+ Proven Experience Worldwide

Trusted by Boy Scouts of America, US DEA, US DOJ, US Embassy Paraguay, and many more.

+ Bilingual Instruction Available

English & Spanish classes for diverse teams, schools, and communities.

+ On-Site Training Available

We come to your school, jobsite, church, or business — flexible scheduling, group rates.

+ Engaging Classroom Instruction

Video and multimedia-driven lessons that make complex skills simple to remember when seconds count.

+ Same-Day Certification

Walk out the door with your credentials — issued by a nationally recognized instructor.

+ Real Hands-On Experience

Adult, child, and infant manikins. Every student practices compressions, breaths, and AED use.

"Then He breathed on them, and said to them, 'Receive the Holy Spirit.'"
